Limited Warranty Statement

ROTO-MIX LLC warrants to the original purchaser all products manufactured by it to be free from defects in material and workmanship under normal use and service.

ROTO-MIX's obligation under this warranty is limited to repairing or replacing, as the company may elect, free of charge and without charge for installation, at the place of business of a dealer or distributor authorized to handle the equipment covered by this warranty or at a ROTO-MIX facility, any parts that prove, in the company's judgment, to be defective in material or workmanship within one (1) year after delivery to the original purchaser, and still owned by the original purchaser. This warranty shall in no way make ROTO-MIX liable to anyone for personal injuries or damages, loss of time, or expense of any kind either direct or indirect resulting from part failure or defect. This warranty is subject to acts of God, fire and existing conditions of supply and demand, or production, or ability or inability to deliver, or for any other valid reason beyond the reasonable control of ROTO-MIX, to obtain materials, manufactured replacement parts, or make delivery thereof. No distributor, dealer, agent, or ROTO-MIX employee (other than the CEO or President in writing) is authorized to extend any other or further express or implied warranty or incur any additional obligation on ROTO-MIX's behalf in connection with the sale of this product.

If ROTO-MIX, or its duly authorized representative, shall find that such returned part or parts are defective and such defects, or defect, are included in and covered by said warranty, then such defective part or parts shall promptly be replaced without charge to the purchaser, F.O.B. the ROTO-MIX plant.

Product Registration - It is a condition of this warranty that the original purchaser must fill out the warranty card furnished by ROTO-MIX and that it be returned to ROTO-MIX within 10 days of purchase and be recorded in ROTO-MIX's owner file for this warranty to be valid. In the event an owner's card is not on file at the ROTO-MIX office, the warranty period will extend only from date equipment was picked up or shipped from the ROTO-MIX plant.

Maintenance - It is the customer's responsibility to maintain their equipment in accordance with the instructions provided in the Operator's Manual. ROTO-MIX recommends that you keep records and receipts; you may be asked to prove that maintenance instructions have been followed.

Operation - It is the customer's responsibility to operate the equipment only for the purpose for which it was designed and in accordance with all safety and operational recommendations contained in the Operators Manual. If a defect in materials or workmanship occurs, it is the customer's responsibility to cease operating the equipment until authorized repairs are made. **Damage, which occurs from continued operation, may not be covered by this warranty.**

What this Warranty Covers

This warranty covers failures caused by defects in materials or workmanship only.

This Warranty does not cover failures caused by:

- Improper operation
- Natural calamities
- Unauthorized modifications
- Unauthorized repairs
- Use of Non ROTO-MIX parts
- Neglected maintenance
- The use of PTO Shaft Adaptors
- Usage contrary to the intended purpose of the product

This Warranty does not cover replacement of Wear or Maintenance Items including, but not limited to.

- Lubricants
- Filters
- Hoses
- Tires
- Augers
- Wipers
- Chains
- Idlers
- Batteries
- Blades
- Belts

This Warranty does not cover:

- Pickup and delivery of the equipment
- Service Calls or Travel Time to and from sites
- Rental of replacement equipment during repair period
- Products that have been declared a total loss and subsequently salvaged
- Overtime labor charges
- ROTO-MIX is not responsible and will not be liable for damage caused to persons or property, commercial loss, loss of time or production, loss of use by reason of the installation or use of ROTO-MIX products or their mechanical failure.

Right to Make Changes

ROTO-MIX reserves the right to make any changes to a ROTO-MIX product at any time without incurring any obligation with respect to any product previously ordered, sold or shipped, with or without notice.

Parts Warranty

ROTO-MIX warranties replacement parts against defects in materials or workmanship for a period of 90 days or the remainder of the product warranty, whichever is longer. Remedy for defective replacement parts for units that are beyond the original product warranty, will be limited to replacement of the failed part. Failures that are due to damage, improper installation, lack of maintenance or improper operation will not be covered.

ROTO-MIX 2205 East Wyatt Earp Blvd., Dodge City, KS 67801 (620) 225-1142 Fax: (620) 225-6370

SCALES WARRANTY & SERVICE POLICY

DIGI-STAR SCALE SYSTEMS

Digi-Star, LLC warrants for a period of one year from date of installation, to correct by repair or replacement, at Digi-Star's option, any defect in material or workmanship in any part of this product. In the event of replacement, Digi-Star's sole obligation shall be to provide replacement products or parts. F.O.B. Digi-Star, LLC, W5527 Hwy 106, Fort Atkinson, WI 53538 USA.

WEIGH-TRONIX SCALE SYSTEMS

WEIGH-TRONIX warrants for a period of one year from date of installation, to correct by repair or replacement, at Weigh-Tronix's option, any defect in material or workmanship in any part of this product. In the event of replacement, Weigh-Tronix's sole obligation shall be to provide replacement products or parts. F.O.B. Avery Weigh-Tronix, 1000 Armstrong Drive, Fairmont, MN 56031-1439 USA.

OPERATOR QUALIFICATIONS

Operation Of this mixer/feeder shall be limited to competent and experienced persons. In addition, anyone who will operate or work around a mixer/feeder must use good common sense. In order to be qualified, he or she must also know and meet all other qualifications, such as:

1. Some regulations specify that no one under the age of sixteen (16) may operate power machinery. It is your responsibility to know what these regulations are in your area and/or situation.
2. Current OSHA regulations state in part: At the time of initial assignment and at least annually thereafter, the employer shall instruct **EVERY** employee in the safe operation and servicing of all equipment with which the employee is, or will be involved.
3. Unqualified persons are to **STAY OUT OF THE WORK AREA.**
4. A person who has not read and understood all operating and safety instructions is not qualified to operate the machinery.

FAILURE TO READ THIS MIXER/FEEDER MANUAL AND ITS SAFETY INSTRUCTIONS IS A MISUSE OF THE EQUIPMENT.

SAFETY

TAKE NOTE! THIS SAFETY ALERT SYMBOL FOUND THROUGHOUT THIS MANUAL IS USED TO CALL YOUR ATTENTION TO INSTRUCTIONS INVOLVING YOUR PERSONAL SAFETY AND THE SAFETY OF OTHERS. FAILURE TO FOLLOW THESE INSTRUCTIONS CAN RESULT IN INJURY OR DEATH.

THIS SYMBOL MEANS

-ATTENTION!

-BECOME ALERT!

-YOUR SAFETY IS INVOLVED!

SIGNAL WORDS: Note the use of the signal words **DANGER**, **WARNING**, and **CAUTION** with the safety messages. The appropriate signal word for each has been selected using the following guidelines:

DANGER: Indicates an imminently hazardous situation that, if not avoided, will result in serious injury or death. This signal word is to be limited to the most extreme situations typically for machine components which, for functional purposes, cannot be guarded.

WARNING: Indicates a potentially hazardous situation that, if not avoided, will result in serious injury or death, and includes hazards that are exposed when guards are removed. It may also be used to alert against unsafe practices.

CAUTION: Indicates a potentially hazardous situation that, if not avoided, may result in minor or moderate injury. It may also be used to alert against unsafe practices.

If you have questions not answered in this manual or require additional copies or the manual is damaged, please contact your dealer or ROTO-MIX, 2205 E. Wyatt Earp, Dodge City, Kansas, 67801. (Telephone) 620-225-1142 (Fax) 620-225-6370

SAFETY FIRST

REMEMBER: The careful operator is the best operator. Most accidents are caused by human error. Certain precautions must be observed to prevent the possibility of injury or death.

DO NOT ALLOW PERSONNEL OTHER THAN THE QUALIFIED OPERATOR NEAR THE MACHINE.

NEVER START MACHINE UNTIL ALL GUARDS AND SAFETY SHIELDS ARE IN PLACE.

DO NOT CLEAN, ADJUST OR LUBRICATE THE MACHINE WHILE IT IS IN MOTION.

BEFORE STARTING TRACTOR ENGINE, BE SURE PTO SHIELDS TURN FREELY.

LOOSE OR FLOPPY CLOTHING SHOULD NOT BE WORN BY THE OPERATOR.

OPERATING PRECAUTIONS & INSTRUCTIONS:

- A. Check to see that no obstructions are present in the mixer prior to start up.
- B. Before loading, run the mixer empty and check all operations.
- C. Do not overload the mixer, as the mixing efficiency may be reduced and unit damage may occur. (See loading instructions).
- D. Remove all moisture drain plugs if the mixer is going to set in the rain or snow.
- E. Be sure all shields are in place before operation.
- F. Use common sense when operating.

EQUIPMENT SAFETY GUIDELINES

Safety of the operator is one of the main concerns in designing and developing a new piece of equipment. Designers and manufactures build in as many safety features as possible. However, every year many accidents occur which could have been avoided by a few seconds of thought and a more careful approach to handling equipment. You, the operator, can avoid many accidents by observing the following precautions in this section. To avoid personal injury, study the following precautions and insist those working with you, or for you, follow them.

In order to provide a better view, certain photographs or illustrations in this manual may show an assembly with a safety shield removed. However, equipment should never be operated in this condition. Keep all shields in place. If shield removal becomes necessary for repairs, replace the shield prior to use.

Replace any CAUTION, WARNING, DANGER or instruction safety decal that is not readable or is missing. Location of such decals are indicated in this manual.

Do not attempt to operate this equipment under the influence of drugs or alcohol.

Review the safety instructions with all users annually.

This equipment is dangerous to children and persons unfamiliar with its operation. The operator should be a responsible adult familiar with farm machinery and trained in this equipment's operations. Do not allow persons to operate or assemble this unit until they have read this manual and have developed a thorough understanding of the safety precautions and of how it works.

To prevent injury or death, use a tractor equipped with a Roll Over Protective System (ROPS). Do not paint over, remove or deface any safety signs or warning decals on your equipment. Observe all safety signs and practice the instructions on them.

Never exceed the limits of a piece of machinery. in its ability to do a job, or to do so safely, is in question - **DON'T TRY IT.**

LIGHTING AND MARKING

It is the responsibility of the customer to know the lighting and marking requirements of the local highway authorities and to install and maintain the equipment to provide compliance with the regulations. Add extra lights when transporting at night or during periods of limited visibility.

KEEP ALL SHIELDS IN PLACE

Do not operate mixer/feeder without safety shields in place.

Rotating parts can crush or dismember causing personal injury or death.

Disconnect PTO driveline before removing shields for adjustment or service.

OPERATE MIXER/FEEDER SAFELY

Rotating parts can entangle or strike people, resulting in personal injury or death.

Never enter a mixer/feeder while in operation.

Operate the mixer/feeder from the operator's seat only.

Do not exceed load capacity of the mixer/feeder. (See loading instructions).

Reduce speed when turning or traveling on rough terrain.

Avoid traveling over loose fill, rocks, ditches or holes.

Keep transmissions in gear when traveling downhill.

KEEP RIDERS OFF MIXER/FEEDER

Keep riders off.

Riders are subject to injury such as being struck by foreign objects and being thrown off. Riders also obstruct the operator's view resulting in the machine being operated in an unsafe manner.

STAY CLEAR OF ROTATING DRIVELINES

Entanglement in rotating driveline can cause serious injury or death.

Keep tractor master shield and driveline shields in place at all times. Make sure rotating shields turn freely.

Wear close fitting clothing. Stop the engine and be sure PTO driveline is stopped before making adjustments, connections, or cleaning out PTO driven equipment .

PREVENT BATTERY EXPLOSIONS

Keep sparks, lighted matches, and open flame away from the top of battery. Battery gas can explode.

Never check battery charge by placing a metal object across the posts. Use a volt-meter or hydrometer.

Do not charge a frozen battery; it may explode. Warm battery to 16C (60F).

AVOID HIGH-PRESSURE FLUIDS

Escaping fluid under pressure can penetrate the skin causing serious injury or death.

Avoid the hazard relieving pressure before disconnecting hydraulic or other lines. Tighten all connections before applying pressure.

Search for leaks with a piece of cardboard. Protect hands and body from high pressure fluids.

If an accident occurs, see a doctor immediately. Any fluid injected into the skin must be surgically removed within a few hours or gangrene may result. Doctors unfamiliar with this type of injury should reference a knowledgeable medical source.

PREPARING TRACTOR FOR TRAILER MIXER

POSITIONING DRAWBAR

IMPORTANT: Drive components can be damaged from excessive speed. Under no circumstances should a feed mixer equipped with 540 RPM be operated by a tractor with 1000 RPM PTO.

Feed mixers are available with either 540 or 1000 RPM driveline. Match tractor PTO with the feed mixer driveline.

IMPORTANT: To prevent driveline damage, adjust tractor drawbar to recommended setting. Disengage tractor PTO before turning.

Remove clevis if equipped. Turn offset drawbar down.

Adjust drawbar length:

PTO SPEED	DIMENSION (A)
540 RPM	14" (256 mm)
1000 RPM (1-3/8" - 21 SPLINE	16" (406 mm)

ADJUST TRAILER HITCH CLEVIS

Mixer should be approximately level when attached to tractor.

Adjust clevis by changing hole location on tongue.

Hitch Pin Size --- 1" x 7"

(F) 440822

SAFETY DECAL CARE

Keep safety decals and signs clean and legible at all times.

Replace safety decals and signs that are missing or have become illegible.

Replaced parts that displayed a safety sign should also display the current sign.

Safety decals or signs are available from your dealer or the ROTO-MIX manufacturing plant.

How to Install Safety Decals:

Be sure that the installation area is clean and dry.

Decide on the exact position before you remove the backing paper.

Remove the smallest portion of the split backing paper.

Align the decal over the specified area and carefully press the small portion with the exposed sticky backing in place.

Slowly peel back the remaining paper and carefully smooth the remaining portion of the decal in place.

Small air pockets can be pierced with a pin and smoothed out using the piece of decal backing paper.

PRACTICE FIRE PREVENTION

Keep fire extinguishers accessible at all times. Use the extinguisher recommended for the material being processed. It should be rated safe for use on electrical fires.

Never smoke close to combustible material.

Clean the area before welding or other activities which may make sparks.

Keep all components that generate excessive heat clear of oil and other combustible materials.

REMEMBER

Your best assurance against accidents is a careful and responsible operator. If there is any portion of this manual or function you do not understand, contact your dealer or the ROTO-MIX plant.

BEFORE OPERATION:

Carefully study and understand this manual.

Do not wear loose-fitting clothing which may catch in moving parts.

Always wear protective clothing and substantial shoes.

Keep wheel lug nuts or bolts tightened to specified torque.

Assure that agricultural implement tires are inflated evenly.

Give the unit a visual inspection for any loose bolts, worn parts or cracked welds, and make necessary repairs. Follow the maintenance safety instructions included in this manual.

Be sure that there are no tools lying on or in the mixer/feeder.

Do not use the unit until you are sure that the area is clear, especially children and animals.

Because it is possible that this mixer/feeder may be used in dry areas or the presence of combustibles, special precautions should be taken to prevent fires and fire fighting equipment should be readily available.

Don't hurry the learning process or take the unit for granted. Ease into it and become familiar with your new mixer/feeder.

Practice operation of your mixer/feeder and its attachments. Completely familiarize yourself and other operators with its operation before using.

Securely attach to towing unit. Use a high strength, appropriately sized hitch pin with a mechanical retainer.

Do not allow anyone to stand between the tongue or hitch and the towing vehicle when backing up to the mixer/feeder.

DURING OPERATION:

Beware of bystanders, **particularly children!** Always look around to make sure that it is safe to start the engine of the towing vehicle or move the unit. This is particularly important with higher noise levels and quiet cabs, as you may not hear people shouting.

NO PASSENGERS ALLOWED - Do not carry passengers anywhere on, or in, the tractor or equipment, except as required for operation.

Keep hands and clothing clear of moving parts.

Do not clean, lubricate or adjust your mixer/feeder while it is moving.

Be especially observant of the operating area and terrain - watch for holes, rocks or other hidden hazards. Always inspect the area prior to operation.

Do not operate near the edge of drop-offs or banks.

Do not operate on steep slopes as overturn may result.

Operate up and down (not across) intermediate slopes. Avoid sudden starts and stops.

Pick the levellest possible route when transporting across fields. Avoid the edges of ditches or gullies and steep hillsides.

Be extra careful when working on inclines.

Periodically clear the equipment of brush, twigs or other materials to prevent buildup of dry combustible materials.

Maneuver the tractor or towing vehicle at safe speeds.

Avoid overhead wires or other obstacles. Contact with overhead lines could cause serious injury or death.

Avoid loose fill, rocks and holes; they can be dangerous for equipment operation or movement. Allow for unit length when making turns.

Do not walk or work under raised components or attachments unless securely positioned and blocked.

Keep all bystanders, pets and livestock clear of the work area.

Operate the towing vehicle from the operator's seat only.

Never stand alongside of the unit with engine running. Never attempt to start engine and/or operate machine while standing alongside of unit.

DURING OPERATION (CONT.)

Never leave running mixer/feeder unattended.

As a precaution, always recheck the hardware on mixer/feeder following every 100 hours of operation. Correct all problems. Follow the maintenance safety procedures.

FOLLOWING OPERATION:

Following operation, or when unhitching, stop the tractor or towing vehicle, set the brakes, disengage the PTO and all power drives, shut off the engine and remove the ignition keys.

Store the unit in an area away from human activity.

Do not park equipment where it will be exposed to livestock for long periods of time. Damage and livestock injury could result.

Do not permit children to play on or around the stored unit.

Make sure parked machine is on a hard, level surface and engage all safety devices.

Wheel chocks may be needed to prevent unit from rolling.

HIGHWAY AND TRANSPORT OPERATIONS:

Adopt safe driving practices:

Keep the brake pedals latched together at all times. **Never use independent braking with machine in tow as loss of control and/or upset of unit can result.**

Always drive at a safe speed relative to local conditions and ensure that your speed is low enough for an emergency stop to be safe and secure. Deep speed to a minimum.

Reduce speed prior to turns to avoid the risk of overturning.

Avoid sudden uphill turns on steep slopes.

Always keep the tractor or towing vehicle in gear to provide engine braking when going downhill. Do not coast.

Do not drink and drive.

HIGHWAY AND TRANSPORT OPERATIONS (CONT.):

Comply with state and local laws governing highway safety and movement of farm machinery on public roads.

Use approved accessory lighting flags and necessary warning devices to protect operators of other vehicles on the highway during daylight and nighttime transport.

The use of flashing amber lights is acceptable in most localities. However, some localities prohibit their use. Local laws should be checked for all highway lighting and marking requirements.

When driving the tractor and mixer/feeder on the road or highway under 20 MPH (40 KPH) at night or during the day, use flashing amber warning lights and a slow moving vehicle (SMV) identification emblem.

Plan your route to avoid heavy traffic.

Be a safe courteous driver. Always yield to oncoming traffic in all situations, including narrow bridges, intersections, etc.

Be observant of bridge loading ratings. Do not cross bridges rated lower than the gross weight at which you are operating.

Watch for obstructions overhead and to the side while transporting.

Always operate mixer/feeder in a position to provide maximum visibility at all times. Make allowances for increased length and weight of the mixer/feeder when making turns, stopping the unit, etc.

PERFORMING MAINTENANCE:

Good maintenance is your responsibility. Poor maintenance is an invitation to trouble.

Make sure there is plenty of ventilation. Never operate the engine of the towing vehicle in a closed building. The exhaust fumes may cause asphyxiation.

Before working on the mixer/feeder, stop the towing vehicle, set the brakes, disengage the PTO and all power drives, shut off the engine and remove the ignition keys.

Be certain all moving parts on attachments have come to a complete stop before attempting to perform maintenance.

Always use a safety support and block the wheels. Never use a jack to support the machine.

PERFORMING MAINTENANCE (CONT.):

Always use the proper tools or equipment for the job at hand.

Use extreme caution when making adjustments.

Never use our hands to locate hydraulic leaks on attachments. Use a small piece of cardboard or wood. Hydraulic fluid escaping under pressure can penetrate the skin.

When disconnecting hydraulic lines, shut off hydraulic supply and relieve all hydraulic pressure.

Openings in the skin and minor cuts are susceptible to infection from hydraulic fluid. If injured by escaping hydraulic fluid, see a doctor at once. Gangrene can result. Without immediate treatment, serious infection and reactions can occur.

Replace all shields and guards after servicing and before moving.

After servicing, be sure all tools, parts and service equipment are removed.

Do not allow grease or oil to build up on any step or platform.

Never replace hex bolts with less than grade five (5) bolts unless otherwise specified.

Where replacement parts are necessary for periodic maintenance and servicing, genuine factory replacement parts must be used to restore your equipment to original specifications. ROTO-MIX will not claim responsibility for use of unapproved parts and/or accessories and other damages as a result of their use.

If equipment has been altered in any way from original design, ROTO-MIX does not accept any liability for injury or warranty.

A fire extinguisher and first aid kit should be kept readily accessible while performing maintenance on this mixer/feeder.

READ THE FOLLOWING BEFORE WELDING ON THIS MIXER/FEEDER

When welding on your mixer/feeder, do not allow the current to flow through the ball bearings or the roller chains. Ground directly to the item being welded.

Always disconnect the scale instrumentation from the weigh bars or load cells and the power source. Be sure the current does not pass through weigh bars or load cells or scale indicator. The alternator should always be disconnected if the mixer/feeder is not disconnected from the towing vehicle.

CHAIN TENSION

All the single roller chain should be tightened to the point of .042" (1 mm) (dime) clearance is reached between the coils of the 1-1/4" idler tension springs and .068" (1.7 mm) (nickel) clearance is reached between the coils of the 1-3/4" idler tension springs.

LOADING INSTRUCTIONS & PRECAUTIONS

- A.** Do not add side board extensions to the mixer.
- B.** Do not overload the mixer. Mixer capacity can be reached by weight or volume. By volume, the rotor bars and wipers should always be visible at the peak of the rotor cycle. If the rotor is completely submerged under the mix, mixing efficiency may be reduced, spillage may occur, and damage to the mixer may result. Maximum capacity by weight can be calculated by multiplying 28 pounds times mixer cubic foot capacity.
- C.** Load liquid supplements with a manifold system to distribute the full length of the mixer (approximately 1 feet). These ingredients should be added towards the end of the loading sequence.
- D.** When adding minute supplements or medication in non-liquid form, these ingredients should be loaded in the middle of the loading sequence.

NOTE: These procedures may not work on all rations. Loading sequences may be changed to give the best possible mix.

ATTENTION:

- F.** Never load the mixer from the right side (side opposite the discharge) with a front end loader or payloader.

ROTO-HAY PROCESSOR

The ROTO-HAY PROCESSOR is designed for processing hay into the mixer.

THE ROTO-HAY PROCESSOR MUST BE PROPERLY USED. ALWAYS USE DRY HAY.

Drain rain water out of mixer before use. 1" of rain in a 4' x 2' equals 4 gal (40 lbs.) of water which will increase the moisture in 1000 lbs. of dry hay (12%) to 40% moisture or 500 lbs. of dry hay to 54% moisture.

The ROTO-HAY PROCESSOR will handle small amounts of damp hay, but this is done at your own risk. ROTO-MIX will not warranty bent or broken rotor tubes, bent or broken augers, or bent hay pans caused from misuse, wet hay, foreign objects, and/or overloading.

HAY PREPARATION

1. **SMALL BALES** - (60 to 150 lbs., 2 or 3 wire) Remove twine or wire from bales and break bales apart.
2. **LARGE SQUARE BALES** - (3' x 4' x 8' or 4' x 4' x 8')
 - A. Position bale so you can get to the end of bale with front end loader.
 - B. Remove twine or wrapping.
 - C. With front end loader, pull a 12" flake away from the bale so it can be picked up with loader bucket - or - by adding 3 or 4 teeth (12" long) to the top of your loader bucket, you can stab the end of the bale and pick up a 12" flake to lay on the mixer hay pan.
3. **ROUND BALES** - Round bales are not recommended with Hay Processor unless tub ground.

LOADING INSTRUCTIONS FOR HAY PROCESSOR

Load all commodities except liquids on the discharge (auger) side with the hay pan in the raised position. The raised hay pan does not affect the mixing action

1. With the mixer running at a minimum rotor speed of 4 RPM, (450 PTO speed on a 540 drive trailer), load prepared hay towards the front of the hay pan on discharge side of mixer. For best results, when loading with a tractor front end loader or payloader, each bucket load should not exceed 200 lbs at one time. Allow time for the hay to be processed into the mixer before loading another 200 lbs. Repeat until desired amount of hay is processed (DO NOT OVERLOAD). Let the mixer run until desired length of hay is reached.
2. Finish loading dry commodities.
 1. Load wet feeds, such as silage, after all commodities and hay are in the mixer.
4. Load liquid supplements with a manifold system to distribute the full length of the mixer (approximately 10 feet).
 1. If water is to be added to the ration - **Do this last!**

OPERATION:

Trailer mounted mixers can be furnished with single tractor controls or dual controls. Dual controls are standard unless specified.

1. Single controls operate as follows: Spout goes down first - door opens second. Door closes first - spout goes up second.
2. The disadvantage of the single control is that it does not let you adjust the spout height without first closing the door.

MIXER INFORMATION

The mixer trailers are equipped with recapped tires with a new tread cap.

LUBRICATION CHART

DISENGAGE PTO & SHUT OFF POWER BEFORE LUBRICATING THE MACHINE.

LOOSE OR FLOPPY CLOTHING SHOULD NOT BE WORN BY THE OPERATOR.

OIL BATH: Fill the oil bath with 30 weight motor oil to sight plug at center of input shaft.

GREASE BANK: Grease every 100 hours.

FRONT END BEARINGS: Grease every 100 hours.

INPUT BEARINGS: One (1) on input shaft beneath mixer/feeder. Grease every 100 hours.

PTO SHAFTS & U-JOINTS: Grease every 10 to 20 hours.

GEARBOX (Only on Truck Mounts with Automatic Transmission):

Before operation, remove the topmost plug and replace with vent plug provided. After the first 100 hours of operation, drain the initial oil, preferably warm. Flush the gear case with an approved non-flammable, non-toxic solvent and refill with oil. Thereafter oil should be changed every 2500 hours or every 12 months, whichever occurs first. Fill the gearbox with 1-1/2 pints of (Mobil Delvac Synthetic Gear Oil 75W-90).

354-12 ON TRAILER - 10,000 LB
W/ HAY PROCESSOR - 10,600 LB

* INCREASE DIMENSIONS BY 4"
WHEN OPTIONAL RISER BLOCKS
ARE INSTALLED.
DECREASE DIMENSIONS BY 3"
WHEN OPTIONAL 255 R 70 x 22.5
TIRES ARE INSTALLED.

	12" SPT	17" SPT
A	36"	34"
B	39"	37"
C	14"	19"
D	11"	16"

All Dimensions & Specifications are Approximate and Subject to Change Without Notice.

354-12 TRAILER DIMENSIONS (WITH CONVEYOR)

UNDERLINED DIMENSION IS
CONVEYOR SET AT IT'S
MAXIMUM OPERATING
ANGLE OF 30 DEG

All Dimensions & Specifications are Approximate and Subject to Change Without Notice.

354-12 TRUCK DIMENSIONS

	12" SPT	17" SPT
A	46"	44"
B	49"	47"
C	13"	18"
D	10"	15"

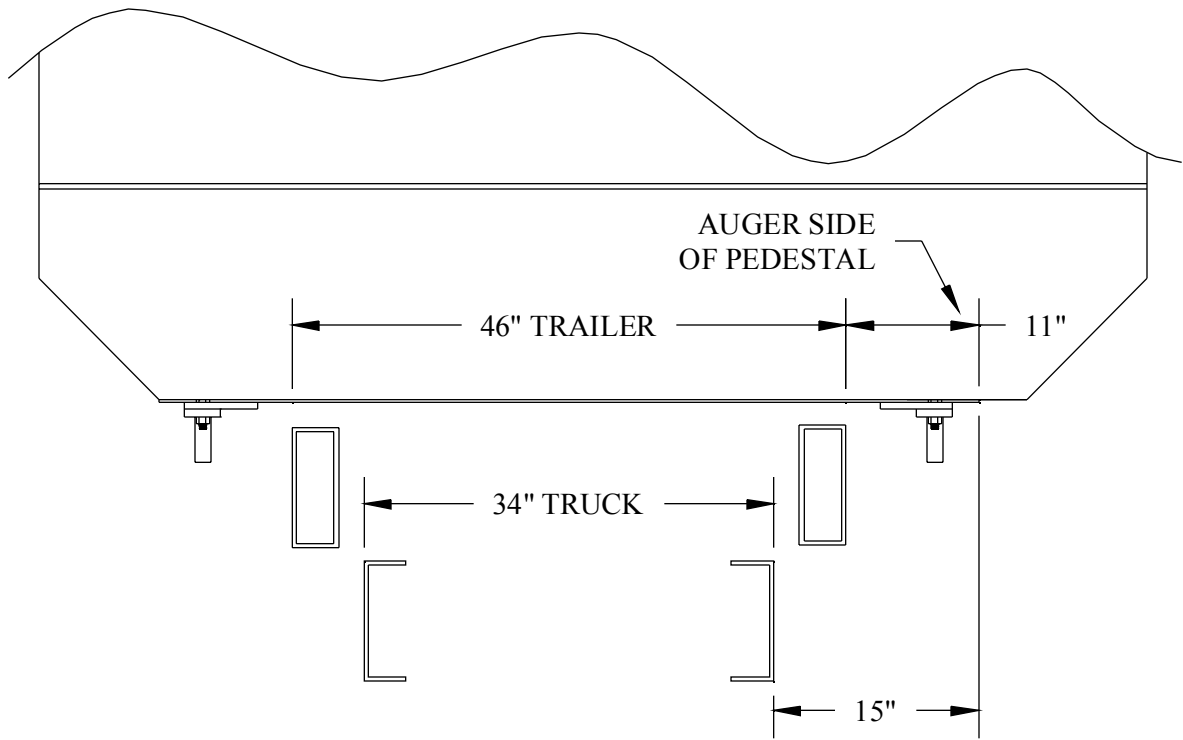

HEIGHT DIMENSIONS BASED
ON 36" TRUCK FRAME WITH
17" SPOUT

APPROXIMATE WEIGHT
354-12 ON TRUCK - 9,300 LB
W/ HAY PROCESSOR - 9,900 LB

All Dimensions & Specifications are Approximate and Subject to Change Without Notice.

354-12 MOUNTING DIMENSIONS

All Dimensions & Specifications are Approximate and Subject to Change Without Notice.

354-12B DISCHARGE DOOR ASSEMBLY

ITEM#	PART#	DESCRIPTION	QTY.
1	150049	DOOR ARM	2
2	150385	DOOR MARKER BAR (TRAILER)	1
3	184259	DOOR CYLINDER MARKER PLATE (TRUCK)	1
4	184267	DOOR CYLINDER MARKER CLAMP	1
5	402512	FLAT WASHER 3/4" SAE	3
6	404003	COTTER PIN 5/32" X 1 1/4"	3
7	404350	CLEVIS PIN 3/4" X 2"	3
8	780109	HYDRAULIC CYLINDER 2" X 8" (WITH FITTINGS)	1
A	364055	HYDRAULIC CYLINDER 2" X 8" (CYLINDER ONLY)	1
B	364954	HYDRAULIC CYLINDER ROD 2" X 8" X 1 1/16"	1
C	364400	HYDRAULIC CYLINDER 2" REPAIR KIT	1
9	850019	DISCHARGE DOOR WELDMENT	1
10	850020	DOOR LEVER ARM WELDMENT	1

352-12 HAND WHEEL ASSEMBLY

ITEM#	PART#	DESCRIPTION	QTY.
1	150244	HAND WHEEL BEARING BLOCK	1
2	150387	HAND WHEEL SHAFT - 53-1/2"	1
3	185114	DRIVE GEAR, 1"	1
4	189105	BEARING BRAKE BLOCK	1
5	189106	HAND KNOB BLOT SUPPORT	1
6	189112	BRAKE ARM	1
7	340216	1" FLANGE MOUNT BEARING	2
8	407047	CHCS, 3/8-16 x 3", #5 PLTD	1
9	410305	HAND KNOB 3/8"-16	1
10	850077	DISCHARGE DOOR WA	1
11	850079	HAND WHEEL FRAME WELDMENT	1
12	872030	HAND WHEEL WA	1
13	872349	BEARING BRAKE MOUNT WA (RH)	1

354-12 OIL BATH BEARING LUBE SYSTEM

ITEM #	PART #	DESCRIPTION	QTY.
1	310750	FPT GREASE ZERK PLTD 1/8	7
2	368000	PIPE ELBOW, 90° STREET 1/8"MP x 1/8"FP	12
3	402507	FLAT WASHER 7/16" SAE	7
4	367536	GREASE LINE x 40"	1
5	367534	GREASE LINE x 20"	1
6	367527	GREASE LINE x 61"	1
7	367525	GREASE LINE x 51"	2
8	367535	GREASE LINE x 25"	2
9	368324	ELBOW, STREET, 1/4"MP x 1/8"FP (STEEL)	1

354-12 SCALE INDICATOR ASSEMBLY

ITEM#	PART#	DESCRIPTION	QTY.
1	151274	414 PTO SHIELD MTG BRACKET	1
2	184283	HOSE CARRIER 36"	1
3	185302	P.T.O. SHIELD	1
4	412205	CABLE CLAMP, 3/8"	1
5	440830-S	DANGER : ROTATING DRIVE LINE	3
6	850047	SCALE INDICATOR PLATE W/A	1
7	850048	SCALE INDICATOR ARM WA	1

ITEM#	PART#	DESCRIPTION	QTY.
8	185303	TRAILER SCALE ARM ANGLE 6-1/4"	1
9	185490	TRAILER SCALE IND TUBE	1
10	185491	TRL SCALE HINGE PLATE - 5-1/2"	2
11	185493	SCALE HINGE WASHER 2-1/2" O.D.	4
12	872125	TRAILER SCALE ARM WA 2-1/2" SQ x 34"	1
13	872126	SCALE IND ARM WA	1

354-12B LOWER AUGER FLOAT ASSEMBLY

ITEM#	PART#	DESCRIPTION	QTY.
1	150418	BEARING SLIDER PLASTIC	2
2	150764	FLOATING AUGER SHIELD	1
3	400206	HEX NUT 3/8"-16 #5 PLTD	4
4	400210	HEX NUT 5/8"-11 #5 PLTD	5
5	400610	HEX JAM NUT # 5 PLTD 5/8"-11	4
6	402006	SPRING LOCK WASHER 3/8" MED PLTD	4
7	402010	SPRING LOCK WASHER 5/8" PLTD	5
8	402406	FLAT WASHER 3/8" PLTD	4
9	405655	HHCS 3/8"-16 x 1 1/2" #5 PLTD	2
10	405656	HHCS 3/8"-16 x 1 3/4" #5 PLTD	2
11	405754	HHCS 5/8"-11 x 2" #5 PLTD	5
12	850154	BEARING SLIDE FRAME WA	1
13	850155	BEARING SLIDE PLATE WA	1

354-12B TRAILER WEIGH BAR SCALE FRAME ASSY

ITEM#	PART#	DESCRIPTION	QTY.
1	872169	WEIGH BAR MOUNT – 2 1/8"	4
2	850070	WEIGH BAR RISER BLOCK (OPTIONAL)	4
3	185609	WEIGH BAR MOUNTING PAD	4

354-12B TRUCK LOAD CELL SCALE KIT

ITEM #	PART #	DESCRIPTION	QTY.
1	182881	SCALE MOUNT MIXER PLATE	4
2	182915	LOAD CELL CAGE PLATE	8
3	182998	BRACKET, TRUCK FRAME, 8	4
4	185997	SCALE PAD	8
5	190075	DIGI-STAR LOAD CELL SUPPORT PT	4
6	400210	HEX NUT 5/8"-11 #5 PLTD	16
7	400212	HEX NUT 3/4"-10 #5 PLTD	8
8	400912	HEX CROWN LOCK NUT 3/4"-10 #5 PLTD	8
9	402010	SPRING LOCK WASHER 5/8" PLTD	16
10	402512	FLAT WASHER 3/4" SAE	8
11	405756	HHCS, 5/8"-11 x 2-1/2" #5 PLTD	8
12	405758	HHCS 5/8"-11 x 3" #5 PLTD	8
13	405783	HHCS 3/4"-10 x 3" #5 PLTD	8
14	405798	HHCS #5 PLTD 3/4"-10 x 8-1/2	4
15	440412	GROUND STRAP 12"	1
16	870501	SCALE CHECK ROD W.A.	3
17	870519	MIXER SCALE CHECK W.A.	2
18	870527	420-490 TRUCK SCALE FRAME W.A.	1
19	872053	OFFSET CHECK ROD W.A.	1

354-12B TRUCK WEIGH BAR SCALE FRAME

ITEM#	PART#	DESCRIPTION	QTY.
1	850080	TRUCK WEIGH BAR FRAME – 34"	1
	850274	TRUCK WEIGH BAR FRAME – 29 1/2"	1
2	182998	TRUCK FRAME BRACKET	4
3	185609	MIXER BAR MOUNT PAD	4
4	872169	WEIGH BAR MOUNT 2 1/8"	4

354-12B TRUCK WEIGH BAR SADDLE BRACKET

(USED WITHOUT REGULAR SCALE FRAME)

ITEM#	PART#	DESCRIPTION	QTY.
1	189294	WEIGH BAR MIXER PAD – 7"	4
2	873122	WEIGH BAR MOUNT – 2 1/8"	4
3	860088	WEIGH BAR BLOCK – 2 1/8"	4
4	850359	WEIGH BAR SADDLE PLATE W.A.	4
5	150938	WEIGH BAR BACKING PLATE – 7" X 10" - REG	4
6	150939	WEIGH BAR BACKING PLATE – 5" X 10" - OPTIONAL	4

354-12 TRUCK LOAD CELL SADDLE BRACKET

ITEM#	PART#	DESCRIPTION	QTY.
1	161486	STIFFNER TUBE	2
2	185567	SADDLE MOUNT BOLT PLATE	4
3	189238	SCALE MNT MIXER PAD	4
4	190371	PLATE, FRT SADDLE MNT 10" x 15"	4
5	190372	PLATE, FRT SADDLE MNT	4
6	190375	TUBE, SADDLE MNT 4" SQ x 49"	2
7	190376	TUBE, SADDLE MNT 4"SQ x 7"	4
8	400212	HEX NUT 3/4"-10 #5 PLTD	8
9	402412	FLAT WASHER 3/4" PLTD	4
10	405798	HHCS #5 PLTD 3/4-10 x 8-1/2	4
11	450860	SCISSOR MOUNTING BRACE (J-STAR)	4
12	450725	LOAD CELL 30K, 1/10% IWS	4
13	872150	SADDLE MOUNT WA	4

354-12B STATIONARY LOAD CELL SCALE FRAME ASSEMBLY

ITEM#	PART#	DESCRIPTION	QTY.
1	872019	STATIONARY SCALE FRAME LOAD CELL W.A.	4
2	870519	MIXER SCALE CHECK	1
3	182915	LOAD CELL CAGE PLATE	1
4	185124	RUBBER SCALE PAD	2
5	182881	SCALE MOUNT MIXER PLATE	8
6	870501	SCALE CHECK ROD W.A. 19 1/2"	8
7	871053	SCALE CHECK ROD W.A. 31 1/2"	20

354-12B STATIONARY WEIGH BAR SCALE FRAME ASSEMBLY

ITEM #	PART #	DESCRIPTION	QTY.
1	185609	BAR MOUNT MIXER PAD 7"	4
2	400210	HEX NUT 5/8"-11 #5 PLTD	8
3	400906	HEX NUT, 3/8"-16 CROWN LOC #5 PLTD	4
4	402010	SPRING LOCK WASHER 5/8" PLTD	8
5	402406	FLAT WASHER 3/8" PLTD	8
6	405665	HHCS 3/8"-16 x 4" #5 PLTD	4
7	405756	HHCS, 5/8"-11 x 2-1/2" #5 PLTD	8
8	450822	WEIGH BAR, 2-1/8"	4
9	450923	J-BOX 15 FOOT CORD	1
10	850076	354/414 STA SCALE FRAME WA	1
11	872169	2-1/8 WEIGH BAR MOUNT WA	4

354-12B STATIONARY FLOOR MOUNT SCALE ASSY

ITEM#	PART#	DESCRIPTION	QTY.
1	450863	STATIONARY BASE BRACKET W.A. – 2 1/8" W.B.	4
2	850524	STATIONARY PAD W.A.	4
3	151016	STATIONARY SCALE PAD	4
4	404280	LATCH PIN – 3/4" X 3 1/2"	4
5	404281	WEIGH BAR PIN – 5/8" X 4 3/4"	4

354-12B TRAILER FRAME ASSEMBLY

ITEM #	PART #	DESCRIPTION	QTY.
1	374002	JACK, 5,000# (G & G 456-0510)	1
	780904	JACK, 9,000# DROP LEG (OPTIONAL)	1
2	374100	CAT 3 BASE HITCH BODY (PPI-237VR)	1
3	374101	CAT 3 CLEVIS INSERT (PPI-208VR)	1
4	400114	HEX NUT, 1/2-13 SERRATED FLANGE #5	8
5	400908	HEX CROWN LOCNUT 1/2"-13 #9	2
6	400912	HEX CROWN LOCK NUT 3/4"-10 #5 PLTD	6
7	400918	HEX CROWN LOCKNUT 3/4"-10 #8 PLTD	1
8	402412	FLAT WASHER 3/4" PLTD	4
9	402512	FLAT WASHER 3/4" SAE	2
10	405714	HHCS 1/2" x 4-1/2" #5 PLTD	2
11	405791	HHCS 3/4" x 6"	2
12	406479	HHCS 3/4"-10 x 2" #8 PLTD	4
